GRAYLING, MICHIGAN, THURSDAY, MAY 2, 1935

O. P. Schumann, Editor and Proprietor.

### Andrew Brown Dies From Heart Attack

Grayling people were shocked Sunday morning when word was passed around that Andrew Brown had passed away during the night. He had been at his usual duties at the Carlson feed warehouse Saturday and it seemed impossible that it could be true. Mr. Brown was taken with a severe coughing spell at about 2:00 o'clock which brought on a heart attack, he passing away within a few minutes.

Mr. Brown had been a resident of Grayling and Frederic since 1898. He was born in Scriba, New York, Jan. 30, 1857, the son of John D. and Eliza Brown. The family, while he was yet a young man, moved to Columbiaville, Lapeer county. It was here that he was united in marriage to Rebecca Lambert. In 1898 Mr. and Mrs. Brown came to Frederic and in 1917 they moved to Grayling. Mr. Brown was a millwright by trade and worked in the mills at Frederic and on coming to Grayling entered the employ of the Salling Hanson Company, working for that firm until they ceased operations. For the past few years he has been taking care of the Carlson feed warehouse located here. Being of an ambitious nature he was never satisfied to be idle.

He was a member of Grayling Oddfellow Lodge and one of its most active members, making it a point to be at every meeting. He held the office of justice of the peace at the time of his death and had held other public offices of trust in Frederic while residing there.

The funeral was held Tuesday afternoon with services at Michaelson Memorial church. Rev. Arthur E. Gay, of Fremont, an old friend of the family officiated. Pallbearers were Oddfellows and interment was in Elmwood cemetery.

Surviving the deceased besides his widow are three sons and one daughter, John, Ann Arbor, Roy, Detroit, Mrs. D. L. Wurzburg, Rockford and Carlyle at home. Also two grandchildren, one brother William Brown of California and two sisters, Mrs. Walter Savage of Grand Rapids and Mrs. Minnie Rankin of Johannesburg. All have the sympathy of many friends in their sorrow.

Those from a distance in attendance at the funeral were Mr. and Mrs. John D. Brown, Ann Arbor; Roy Brown, Detroit; Mr. and Mrs. D. L. Wurzburg and daughter Kathryn Yvonne, Rockford; Mrs. Walter Savage and son Ralph, Grand Rapids; Mrs. Minnie Rankin, Johannesburg; Mrs. Eva Wurzburg, Northport.

**The Siamese Twins**  
The Siamese twins were born in Siam. These children, joined together from birth, were widely exhibited and the expression, Siamese twins, has now the meaning of children so united.

### BICYCLE CLUB ORGANIZED

A bicycle club has been organized in Grayling. It is called the Grayling Cycle Club. Every Saturday the club plans to go on a bicycle trip and take their lunch. Jack Wright was chosen president and Laura Johnson secretary and treasurer. Anyone between the ages of 12 and 16 who has a bike and wishes to join inquire of Jack Wright or Laura Johnson.

### Legion Offers Council Use Of Club Rooms

Since Grayling has been ejected from the Courthouse for use for council meetings and office and since the village has no place for holding their meetings, the house committee, representing Grayling Post American Legion has extended an invitation to the Council to use their hall until such time as they are able to provide permanent quarters. The invitation reads as follows:

### Junior Presenting Play Friday Night

Don't forget the Junior class will present their play "Girl-Shy" tomorrow night, May 3, at the high school auditorium.

"Girl-Shy" is a rollicking, spirited 3-act comedy about college life and students. The girl-shy Senior who finds himself confronted with adoring girls and his pal, who tries to help him out but only succeeds in kidnapping the wrong girl, are examples of college youth found in this play. The play is filled with difficult situations and clever, witty dialogue. Don't miss it! You owe it to your sense of humor to see these enthusiastic Juniors do their stuff.

Tickets and reserved seats are on sale at the Central Drug Store.

### BAND PICNIC HERE JULY 14

Grayling will be the scene of a band picnic on Sunday, July 14, as one of the season's get-togethers of the Northeastern Michigan Band Association. There are always two picnics held during the summer, one in June and one in August. Director E. G. Clark, boosting for Grayling, was able to secure the June picnic, but asked for the July 14th date. On that day Grayling's big Homecoming will swing into action and this will be a very appropriate manner in which to start the week's festivities. Charlevoix was selected for the August picnic.

These arrangements were made last Sunday at a meeting of the association at the band hall here in Grayling. There were representatives present from Beaverton, Mio, Cheboygan, Petoskey, Charlevoix, and Grayling. The gathering enjoyed having with them also Prof. Frederick Lewis of Ann Arbor, director of the American Music camp of Cheboygan.

### Civic Improvement League Pushing Yard Clean-Up

At a meeting of the Civic Improvement League Monday evening, a general discussion was held on improving the appearance of our town. While it is appreciated that citizens are cleaning up their yards and making improvements on their property, there are still some unsightly places that spoil the looks of certain streets. It is hoped that very soon these will be taken care of. Surely every citizen has pride in seeing Grayling become a clean, well kept, beautiful little city.

With our Homecoming in mind the league discussed the improvement of public buildings. In some cases the grounds surrounding the building and in other cases the building itself. A coat of paint perhaps, or the planting of shrubs and flowers would improve their appearance wonderfully.

It is hoped to instill into our school children enthusiasm in making the lawn surrounding the school building a really beautiful spot. Each child should have a personal responsibility in not only helping to plant shrubs and beds of flowers on the grounds but also in seeing that they are preserved and cared for.

Other public buildings and grounds discussed were the churches, township hall, Temple theater, Danebod Hall, Court house, etc. While these buildings are in fairly good condition, there is still a chance for vast improvement, and with this in view committees were appointed to wait upon the proper authorities and suggestions to be made.

Don't forget the address to be given at the school auditorium May 22 by O. I. Gregg, of M.S.C. on the subject of "Landscaping Architecture" at 8 o'clock.

There will be a meeting of the league at the Hanson Hardware club rooms Monday, May 10. Come and make suggestions.

### Fr. Culligan Goes To Ludington

Fr. J. L. Culligan, who has been pastor of St. Mary's church for the past ten years, received word the latter part of the week that he was to be transferred to Ludington. He accordingly is leaving tomorrow for his new pastorate at St. Simon's church in Ludington. He is to teach the school in connection with the parish in which there are 400 pupils enrolled and on Saturday and Sunday will have parish duties to perform. The teaching is very much to Fr. Culligan's liking, as he holds a number of college degrees, and has hoped for this sort of duty.

In the ten years that Fr. Culligan lived in Grayling he endeared himself to his congregation and also enjoyed a large circle of friends outside of the parish. He enjoyed very large congregations each Sunday and has kept the church in excellent standing. It is regretted that he should have to leave Grayling but he is wished unbounded success in his new field.

Fr. James Maloney has come to Grayling from St. Andrews church, Grand Rapids to fill the place at St. Mary's church.

Sunday evening as a farewell to Father Culligan, some forty men of the parish and others gathered at the rectory for a smoker. Several hours were spent very enjoyably with impromptu speeches made by most everyone present. Father Culligan was presented with a liberal purse as a token of appreciation.

**Straits of Magellan**  
The Straits of Magellan are more than 300 miles long, measured by the ship channel. Penguins are seen there in great numbers; seals and whales are plentiful and the albatross is sometimes encountered.

### Children Fund Offices Moving To Lake City

At a meeting of representatives of the four county unit of the Children's Fund of Michigan, consisting of Crawford, Kalkaska, Missaukee and Roscommon, it was unanimously voted to change the headquarters from Grayling to Lake City.

When the Children's Fund of Michigan was instituted by Senator Couzens six years ago, this four-county unit was the first one to be established. Others followed rapidly through the state. It was for the purpose of ministering to the children of Michigan and to see to it that none had to suffer for the want of medical and surgical care because of finances.

It is a noble effort and one in which the state and counties have borne a portion of the costs. But for some time the management hasn't been quite satisfied here because of inadequate offices and lack of available better type tenement houses. These things have been promised them by the citizens of Lake City.

The controlling board is made up of two supervisors from each of the four counties. When the matter of change of location from Grayling to Lake City came up for vote at the Saturday meeting, no supervisor from Crawford county was present. Had this county been ably represented as it should have been it might have been possible to influence the other members to vote to continue the headquarters here.

The removal of this institution headquarters is a distinct loss to Crawford county.

### Legion Jottings

The Bugle & Drum Corps ball will be held next Sunday, May 5th at Johnson's Rustic Dance Palace, Houghton Lake, near Prudenville. Through the courtesy of Mr. Johnson and his long friendship with Comrade Clarence Johnson, the former rented his hall to the Legion for the opening date. Comrade Johnson and "Spike" McNeven took a trip through southern Michigan to procure one of the best orchestras to be had. The result was they contracted for the famous 10-piece dance band, Maurice Rushlow's of Saginaw. What could be a better setup with such a dance palace as Mr. Johnson's, with extra good music. All the proceeds go to the Grayling Bugle & Drum Corps. The admission price was put as low as possible, 50c per person. Yes, there will be beer served also.

The Bugle & Drum Corps have been extended an invitation to be present at the Trout Festival at West Branch Sunday afternoon, May 5th. They have accepted and will leave here Sunday forenoon to make a big noise and let the people of northeastern Michigan know they are on the map. We are not so good but we can at least show we are awake and ready to help represent Grayling.

Last Thursday night the Corps went to Connine's Grove for their drill. Monday night they got a heavy workout at their hall and are improving right along. One must realize that Bugle & Drum Corps are not made up in a few weeks; it takes years of drills and practice to become experts. We had very few musicians to begin with, which makes it harder for our instructors.

Everyone of the Corps is requested to be at the Legion Hall Thursday evening at 7 o'clock sharp. We want you ex-service men to come out too. Don't forget. Important.

Every day the committee on the Homecoming to be held here July 14 to 21 inclusive, are mailing out invitations and by the results from these it can be said now it will be a huge success. In years to come folk will be able to look back and say, "I had the best time of my life." Let's all stick up our property and paint and clean up and make the city have a neat appearance. Sometimes a few hours work

will make your property look worth double. Let's beautify all places. Why not start now, everyone!

Don't you think Buddy, it would be a good policy to get into the Legion now and help boost the outfit?

At a social meeting of the Auxiliary eight pairs of pajamas were cut out to sew for the children at the Otter Lake Billet, and several of the seamstress members took them home for sewing. Closing the meeting a delicious lunch was served by the committee, Mrs. Earl Hewitt and Mrs. Adolph Peterson.

### SPIKE BUYS CANOES

When Harold (Spike) McNeven heard that the Haskel Canoe Co. of Ludington was discontinuing the building of canoes, he went there and purchased seven and had them delivered to Grayling. He says they are beauties.

At once the demand for canoes became brisk and Spike sold six of the lot. Two went to the McClanahan Lodge, and one each to John Bruun, Chris Hoelsi, Frank Wetzman, Detroit, and to another Detroit man.

He is keeping one canoe for his own use. All of these canoes will remain on the AuSable river or Lake Margrethe and will make a fine addition to our already large flotilla of boats and canoes.

## Dr. Sheets Talks On Mental Hygiene

AT KIWANIS HOUR, IS SUPT. STATE HOSPITAL.

The members of the Kiwanis club were given a special treat by an address at its noonday luncheon Wednesday. Dr. Philip Sheets, superintendent of the State hospital at Traverse City on the subject of mental hygiene.

Also at that meeting four new members were admitted—Postmaster James McDonnell, Farnum Matson, chief postal clerk; Wilhelm Raab, real estate and lands, and A. J. Scott, manager of the local state liquor store. The new members were cordially welcomed by President Clippert and given an outline of the value of membership in the club and expressed the appreciation of the members upon their uniting with them.

Of course all the meetings of the club are interesting and enjoyable. Song leader Frank Sales kept the group busy with rousing songs. Mrs. Clippert playing the accompaniment.

Dr. Sheets, in his address, gave a resume of the several types of insanity. In ancient times persons afflicted by mental troubles were believed to be bewitched and were thrown into dungeons or chained to posts and sometimes severely tortured.

After many years the medical profession approached plans for the care of the mentally sick. As with tuberculosis, the first treatments were not so successful. By more intelligent treatment the ratio of recovery among patients is now about 50%. At the present time there are about 40,000 patients in state hospitals suffering from mental diseases. About 50,000 persons are required to care for them. It requires as many beds for our insane as it does for all other causes combined.

Michigan has eight hospitals—five for insane, two for feeble-minded and one for criminal insane. At the present time 26,000 people in Michigan are on the waiting list to get into these hospitals. An over-load of about 3,300 is now being carried. The state is greatly lacking in rooms. 5,000 more beds are needed to meet this condition, and the question of costs is staggering the taxpayers. It costs about 77c a day to keep a patient.

There are two general types of insanity—organic and constitutional. The former is traceable to some known cause while the latter baffles the medical profession as to cause.

Dr. Sheets dwelt partly upon the psychological development of children and explained that certain traits pointed to the mental

development of the child and at times were signals of warning calling for careful study on the part of parents and teachers.

Dr. Sheets gave the Kiwanians something to think about. Besides being inspirational it left deep impression of the responsibilities of parents and of the leaders of society. Thoughtful guidance, backed with reason, might be the means of guiding young boys and girls to the channels of mental health and usefulness.

## Pioneer Resident Passed Away

Mrs. Peter Smith, aged mother of Jappe P. Smith passed away at her son's home early Sunday evening. The cause of death was due to the infirmities of old age. Mrs. Smith having passed her 88th milestone. She had been very active for her age but the past several weeks she had not been feeling so well.

Mrs. Smith was born in Denmark, Jan. 7, 1847 and united in marriage there in 1875. In 1881 they came to Grayling directly from Denmark. This was at the time when so many of the young Danes came to America, some of them settling in Grayling, others in Manistee. Five children were born to them, two of whom were born in Denmark. Grayling had always been their home from that time, except for a few years when they lived on a farm in Fenton. Mr. Smith died in 1930 and Mrs. Smith had made her home alone since in the comfortable home on US-27. Here the funeral service was held Wednesday afternoon and in the absence of Rev. Hans Juhl, Mr. F. J. Mills officiated at the service. Pallbearers were old Danish friends, and interment was in Elmwood cemetery. In her early years Mrs. Smith took part in the various Danish activities, which were so much of Grayling's life in those days. She was a very kindly woman and enjoyed a large circle of friends. One of her hobbies was planting and caring for a flower garden and she always had a pretty one.

Surviving the deceased are her son Jappe of Grayling, a daughter, Mrs. Sara Congdon of Ypsilanti, six grandchildren and two great grandchildren. Those from out of town in attendance at the funeral were Mrs. Congdon, Mr. and Mrs. Gerald Congdon and Reynolds Congdon, all of Ypsilanti.

## WITH THE FISHERMEN

Though the first day of the trout fishing season proved to be a cold one, it didn't discourage the fishermen. Everywhere along the banks of the AuSable were fishermen ranging from eight years to eighty. And this morning most of them are going out again to either try and repeat the big mess that they caught yesterday or to do better.

Among the lucky ones were Holger (Dad) Hanson and Holger Schmidt, who each got the limit the first day fishing on the famous AuSable. Also Frank A. Wetzman of Detroit got the limit. All of the fish were from 10 to 14 inches long.

## "Dry" Wine

The word "dry," as applied to wine, means the opposite of sweet, without, however, meaning sour. In other words, dry wine is wine having a much lower sugar content than sweet wine.

## The Welland Canal

The Welland canal, from Port Colborne on Lake Erie to Port Weller is about 25 miles long. The St. Lawrence river, from Lake Ontario to the gulf is 750 miles. The whole St. Lawrence river system, from the source of the St. Louis in Minnesota, is about 2,200 miles. Ocean steamers of the largest size ascend the river to Quebec, while many larger ones go as far as Montreal. About Montreal are several rapids, around which canals have been constructed. From the Welland canal to the head of the St. Lawrence proper, at Kingston, is about 160 miles.—Detroit News.

The final vote was 372 to 33. It may be some weeks before it is passed by the senate, for the senate finance committee, to which it was referred, is busy just now with NRA extension and veterans' bonus payment.

## Week At Lansing

(By FRANK D. BROWN, Special Correspondent)

Speculation as to the ultimate failure of much of the administrative legislative program is now rife in capitol corridors and anterooms. Gov. Fitzgerald and Speaker George Schroeder (D) of the House have "locked horns" which incident is regarded as likely to have a sharp bearing on the outcome of the session.

The governor in a letter sent to the speaker has complained that many of the bills he is sponsoring are tied up in democratic-controlled House committees with no apparent reason for delaying action on them. Speaker Schroeder has retorted that the governor's program holds forth no economies in state government but is predicated wholly upon creating a huge political machine.

In a statement to your correspondent, Mr. Schroeder compared the policies of the chief executive with those of Senator Huey Long in Louisiana. "If we enacted his program as it has been presented to us the governor would become a virtual dictator with almost unlimited power over every phase of state government," the speaker said.

The more worthy of the bills effecting governmental reform will be reported out of committees but not until they have been amended in accordance with the views of the democratic House majority. In one or two cases substitute measures will be offered. Among those proposals which the democrats are particularly opposed are those setting up a finance director to dictate the spending policies of the state and the one which would consolidate the welfare machinery under one head. The latter proposal is probably the most bitterly objected to. The Washington relief authorities take kindly to it and in event such a reorganization takes place, indications are that the federal agency will divorce itself entirely from any connection with the state in administering relief in Michigan.

The date of final adjournment is still a matter of little consideration in either house. Lieut. Gov. Tom Read and his senators are inclined to stay on until they have had ample opportunity to mull over to their satisfaction all the bills before them. In the House, nothing is heard right at the moment. If they wanted to both houses could wind-up their deliberations within four or five days but things aren't done that way. Some senators and representatives seem to thrive on the Lansing atmosphere; they prefer the limelight and night-life of the capitol to that of prosaic back-home existence. The result is the taxpayers have to take it "on the chin."

Following out his original plan of taxation reform, Senator Andrew L. Moore (R), Pontiac, chairman of the upper house taxation committee, has submitted two bills, one creating a state land office to dispose of property turned back to the state and the other, abolishing tax sales. The latter measure provides that all lands upon which the tax is not paid shall vest in the state, subject to the owner's right to redeem at any time within six months from the date of sale. At the end of six months, the land would be appraised and for the period of six months the owner would have exclusive right to purchase at the appraised price. After the second six months had elapsed, the land would be offered for sale to any person.

Senator Moore claims for his bill the abolition of the sale of land to the tax buyer and the elimination of the tax title shark. Some differences have appeared relative to his bill setting up a state land office. The state conservation department—already has indicated its opposition on the grounds that that agency has handled in a satisfactory manner the disposition of state cut-over land as well as commercial property in the past.

Only one mishap occurred and that was when they were stuck in a deep muddy hole. GOVERNOR TALMADGE of Georgia, one of the most vigorous Democratic denouncers of President Roosevelt and the New Deal, has a strong supporter in Tom Linder, the Georgia commissioner of agriculture. In the department's official farm bulletin, that gentleman sent to the farmers of the state a message that "we still have the right to secede from the Union."

The statement was carried in a footnote to a long article written by Linder in which he drew a comparison between the Democratic administration in Washington and the Russian government.

The secession reference was in the nature of resentment against a recent ruling by the United States Supreme court reversing Alabama courts in the Scottsboro case on the ground colored citizens were excluded from juries.

KING GEORGE of England, it appears, had no desire for an elaborate and costly celebration of his silver jubilee, such as was planned by the cabinet committee, and now he and Prime Minister MacDonald have ordered that the affair shall be very "quiet."

His majesty was not consulted at first, and when he heard there were strong protests from the northern shires especially against such a wasteful expenditure of money in hard times, he was exceedingly irate and wanted to call off the whole affair. This could not be done, but the celebration will be nothing like what the cabinet committee had intended.

The king has forbidden garter king at arms, the duke of Norfolk, and other high officers of state to the ceremonial department to have anything to do with the jubilee. He has refused to have the peers of the realm in their robes for the presentation of addresses from the houses of parliament. He has refused to robe himself for the occasion.

## SCHOOL AFFAIRS

Report of Hot Lunches  
On discontinuation of hot lunches and final payment of bills, the Hot Lunch Club found that they had a profit of exactly twenty dollars. So they promptly had to devise ways and means of spending the money, for the improvement of the Home Economics room. Below are listed the items on which the money was spent:

\$20 cleared.  
Purchased:  
1 Westinghouse electric toaster \$4.64  
5 yards oilcloth 1.50  
1 oven thermometer 1.00  
1 set of containers (for flour, sugar, etc.) .85  
17 (4 yd. lengths of material for class room use) 1.60  
1 pair pillow cases .50  
1 sleeve board and padding 1.11  
5 sets measuring spoons .75  
Party for Hot Lunch Club and friends 3.25  
Total \$16.11  
On hand \$3.89

The members of the Hot Lunch Club and their guests had a very enjoyable party in the Home Economics room. The evening was spent in games and other amusements, and refreshments were served at the close of the party.

The money left from these purchases is to be kept for the use of the Home Economics Department during the coming year.

The High School has a new picture hung in the lower hall which was purchased from the proceeds of the Art exhibit held late in March. It is "The City of Dreams" by Wevden, and was a popular favorite with the grades, all of whom viewed the display.

Thursday afternoon two picked teams from the High School played a game of hard ball on the diamond at the park. The boys have been working out at intervals as the weather permitted. Dr. Bearsch served as umpire.

## CHARLEVOIX TO HOLD HOMECOMING CELEBRATION

Announcements say that the outstanding entertainment feature of Charlevoix County Homecoming and State Centennial, to be held at Charlevoix July 4, 5, 6, will be the "Historical Pageant" of Charlevoix County, which will be the most colossal feature that has ever been presented outdoors in this section of the state.

Plans are being laid by the American Legion together with the General Celebration committee, to make this celebration a mighty and worth while one, and a considerable sum of money is being expended to put it over in a big way.

8 SHORT MINUTES TO  
DRAIN AND REFILL WITH

**ISO-VIS'D**

Anti-Sludge Motor Oil

It's likely that junk has collected in the winter worn oil in your crankcase—water, copper and steel chips, road grit, rust and dirt. If you haven't been using ISO-VIS'D, Sludge has probably formed, too.

The money-saving remedy is simple. Take 8

short minutes to have your crankcase drained and flushed. Then have it refilled with the correct grade of fresh, clean, long-lasting ISO-VIS'D, Standard's famous Anti-Sludge Motor Oil. It won't sludge. It will stay cleaner. And it will give perfect lubrication all of the time!

## Gov. Proclaims Safety Week

The increasing number of deaths and injuries resulting from automobile accidents gives cause for grave concern. Nine hundred forty-three persons met untimely deaths—ten thousand more were injured, in a state-wide series of traffic mishaps during 1934. These accidents are man-made. They are the result of relaxed vigilance on the part of motorists or pedestrians, or both. All the engineering genius in the world cannot build a foolproof highway. The problem is one of dealing with human nature.

We must do everything in our power to stop this rising toll of deaths in the State of Michigan. In the name of humanity, and as Governor of the State of Michigan, I do hereby proclaim the period from May 12th to 18th, inclusive, as Safety Education Week, to be devoted to a state-wide program of highway safety education, with every interested agency in Michigan devoting its greatest efforts and resources to the end that greater vigilance on the streets and highways of this state will become a part of the lives of all good citizens.

I suggest that mayors, village presidents, chairman of county boards of supervisors and other public officials likewise call the attention of the people to this observance so that it will be general throughout the State.

Given under my hand and the Great Seal of the State of Michigan, this twenty-third day of April, in the year of our Lord one thousand nine hundred and thirty-five, and of the Commonwealth, the ninety-ninth.  
(Signed) Frank D. Fitzgerald, Governor.

By the Governor:  
(Signed) Orville E. Atwood, Secretary of State.

Oldest Example of Man  
The Advance of Science says that the skull of a woman found in London in 1925 and nicknamed the Lady of Lloyds (after the building in which workmen found her) has been nominated for the title "oldest known example of modern man." A British anthropologist has concluded that she lived in the early days of Neanderthal man.

FATHER COUGHLIN, the "radio priest" of Detroit, staged the first state meeting of his National Union for Social Justice in Olympia stadium in his home town, and more than 150,000 enthusiastic supporters crowded into the edifice to hear him tell how he proposed to right the wrongs of the people. On the platform with the crusading cleric were Senators Elmer Thomas of Oklahoma and Gerald P. Nye of North Dakota, and Representatives William Connery of Massachusetts, Martin L. Sweeney of Ohio, Thomas O'Malley of Wisconsin and William Lemke of North Dakota.

The priest put forward the National union as a definite political weapon aimed at the money power and at standpoint partyism.

Father Coughlin has been endorsed by the bishop of Detroit, Rt. Rev. Michael Gallagher.

SENATOR HUEY LONG delivered his much advertised attack on the President and the administration before a crowd that jammed the senate chamber. He was limited to 40 minutes, but in that time he used a lot of language. After describing L. C. Farley, Wallace and General Johnson in terms not very funny, the "Kingfish" assailed Mr. Roosevelt as personally responsible for what he called a plan to force the state of Louisiana to yield to corruption and demagoguery. He threatened a tax rebellion in his realm if there were further federal encroachments in the matter of controlling the expenditure of federal loans for state projects.

Huey charged that the administration was concerned solely with controlling the expenditures in Louisiana in such a manner as to insure winning the election in 1936. "They could go down there and spend the whole five billion and they could not win that election," he said. "But they could load us with the five billion debt that we would have to pay as the result of carrying on their politics."

Senator Long now indicates that he has no desire to head a third party next year unless that should be necessary to bring about the defeat of President Roosevelt. He says he would gladly join with the Republicans if they would nominate Senator Borah.

## LITTLE TOTS WANDER AWAY

Booby Niederer and Bruce Bradow are cousins and live right next door to each other across from the County Garage. Both youngsters are three years old. Yesterday they were joined by Jimmy Laurent, 4 year old son of Mr. and Mrs. "Babe" Laurent, and the three evidently decided to go exploring.

This was just after dinner and it wasn't very long before the three mothers began to wonder where they were. Finally, becoming alarmed, they managed to round up quite a little group and a systematic search was begun.

After some search Fred Welsh finally discovered them at about 2:30 o'clock down at Cold Springs on the AuSable, and they were trudging in the general direction of home. Three families were placed in that uncertain state of mind caused of not knowing just whether to scold or to rejoice. However, no matter what they decided, we do know that there were three little fellows in town who were more than ready to go to bed last night.

## Deputy Sheriff Finds Pure Mineral

IT MAY have the appearance of chalk, but it is Bentonite, a rare non-metallic mineral found in only a few places throughout the world. The new find was made by Deputy Sheriff Worth Bagley, and his uncle, J. G. Bagley. It is located in Imperial county, California, near the Riverside county line, and the Bagleys expect soon to begin mining operations there. Bentonite is used in the refining of gasoline and oil, being more efficient than diatomaceous; also it is used as the base for printers' ink and is employed in the manufacture of candles and drugs. Photograph shows: Deputy Sheriff Worth Bagley showing Miss Vera Moore how he and his uncle made the discovery.
